

CATÁLOGO GENERAL ESCAYOLA

PLASTER & LIGHTING ART & ARCHITECTURE IN LIGHTING

Linea de iluminación arquitectónica adaptable a los diversos ambientes y espacios. Su fabricación en escayola y aleaciones especiales permite acabados diversos o pintarse a tono con los elementos que compongan dicha decoración.

Los elementos interiores de luz pueden ser halógenos, incandescentes o de bajo consumo con lo cual se completan las necesidades de variedad exigidas por decoradores e interioristas.

Este catálogo exalta la belleza y pureza del blanco integrada plenamente en la decoración. La utilización de escayola y aleaciones especiales en la fabricación ofrecen una alta y fuerte resistencia al producto y una amplia gama de posibilidades en el campo de la arquitectura y decoración, aventajando a otros materiales: posibilidades de poder pintar o estucar el aplique integrándolo en la decoración a realizar. Inalterable al paso del tiempo y a factores ambientales. No conductor de la electricidad. No inflamable. No tóxico. Se puede lavar o pintar de nuevo con el paso del tiempo.

Architectural line which can be adapted to different surroundings and spaces. Their manufacture in hard plaster allows different finishes or painting them to harmonise with the other decorative elements.

The internal components can be halogen, incandescent or low energy which allows them to meet the different necessities demanded by decorators and interior designers.

This catalogue praise the beauty and purity of white full integrated in the decoration. The wall lamps included in this collection are made of special plaster and alloys permitting a high consistence of the product, much beyond the average, and providing a wide range of possibilities within the area of decoration and architecture (hotels, office facilities... etc).

It has many advantages over other materials such as: Remains inalterable to time and environment factors. Non-conductive. Not flammable. Not toxic. Can be washed and painted.
